

# 2021 Annual Report Academy of Model Aeronautics

# Executive Summary

The concept of a centralized body to organize, educate, protect, and promote aeromodeling was discussed in 1935 in a hotel lobby during the Nats. Members quickly volunteered their time, talent, and treasure to launch the Academy of Model Aeronautics (then called the American Academy of Model Aeronautics).

In June 1936, a call to action for additional support, volunteers, and officers was made in the first issue of *Model Aviation*. Members did not dissappoint as they rallied together to create our community-based organization.

Eighty-six years later, AMA's mission is still only possible through member support. Throughout the *2021 Annual Report*, we'll celebrate our member accomplishments, volunteer efforts, and contributions to aeromodeling. Thank you members for making 2021 another great year for the hobby!

## AMA's Mission

The Academy of Model Aeronautics is a world-class association of modelers organized for the purpose of promotion, development, education, advancement, and safeguarding of modeling activities.

The Academy provides leadership, organization, competition, communication, protection, representation, recognition, education, and scientific/technical development to modelers.

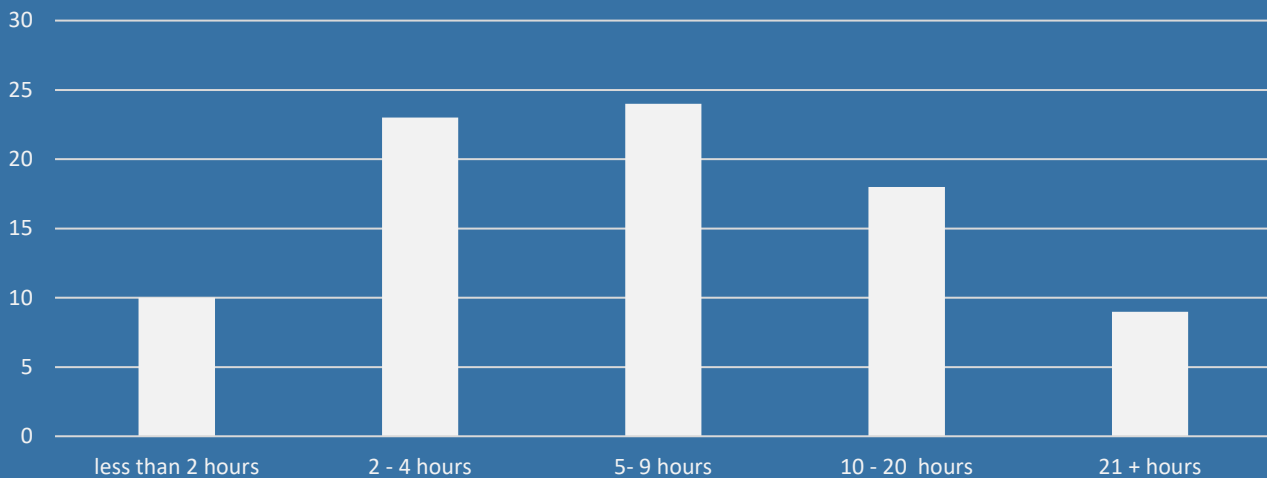

# Membership Continues to Grow

AMA outpaced membership totals in 2020 and exceeded 2021 goals by 2.26%.

## Members Are More Active in 2021

More events took place in 2021 than in 2020 with the majority of members indicating that they participate in model aviation activities 5 to 9 hours per week. COVID was still cited as the primary reason for any decrease in model aviation activity.

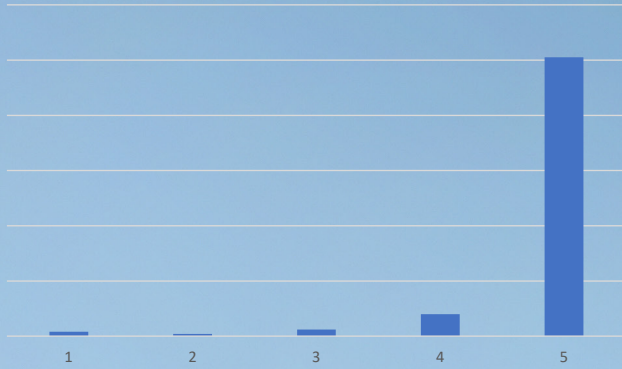

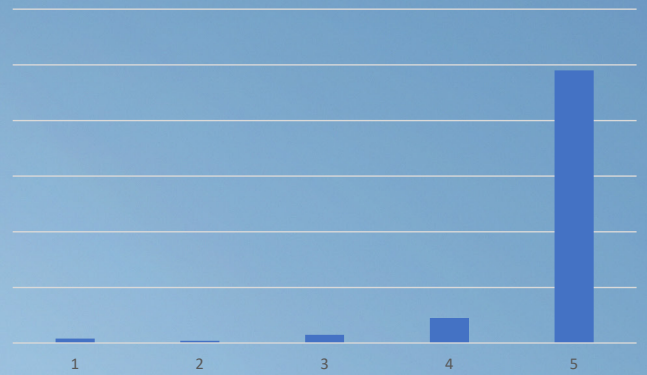

# Member Services Receives High Marks

Members are frequently asked to fill out a membership service survey after contacting AMA Headquarters. Below are highlights from our member services survey.

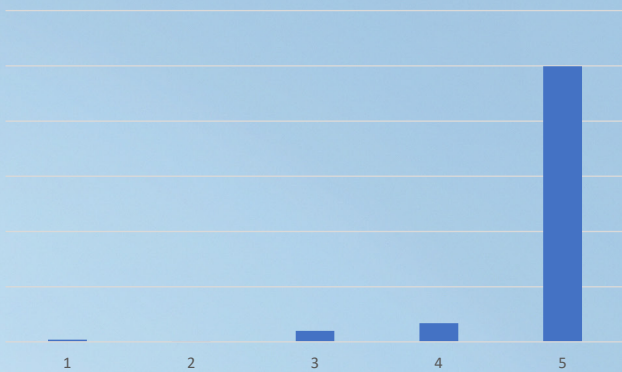

On a scale of 1-5, with 5 being the highest, how satisfied were you with the overall quality of service?

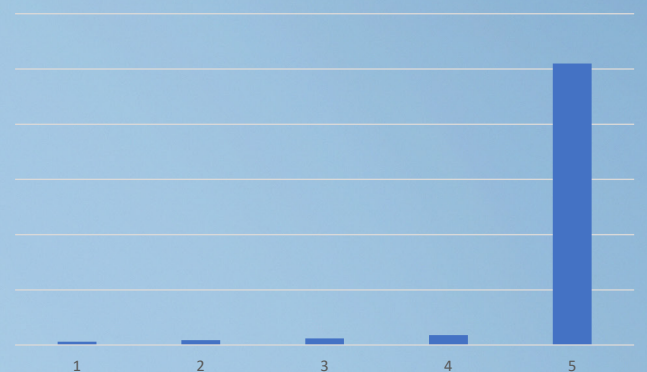

On a scale of 1-5, with 5 being the highest, how responsive was your membership representative?

On a scale of 1-5, with 5 being the highest, how knowledgeable was your membership representative?

On a scale of 1-5, with 5 being the highest, how well was your issue resolved?

Membership Customer Service Survey Jan. to Dec. 2021

# AMA Member Historic Mars Flight

Many modelers take great pride in seeing something they have built successfully take off and fly then come in for a smooth landing. For one AMA member, one of his creations did just that—except its maiden flight took place on Mars.

“I would never have imagined as a kid having something that I built land on another planet,” Matt Keennon, project manager for AeroVironment, Inc., said from his office in Simi Valley, California. Matt helped design, test, and build Ingenuity, a roughly 4-pound helicopter that made its first flight on Mars April 19, 2021, at 3:34 a.m. EDT. “I led the effort to build subscale model helis that were 12 inches in diameter using RC model parts,” Matt explained. “I did the piloting for those small models.”

Other AMA members and/or model builders are employed by AeroVironment, Inc, which was hired by NASA (JPL) at the California Institute of Technology (Caltech) to develop the helicopter, Matt added. In fact, his love of model aviation is what helped him get the job. Matt was recruited in 1995 while at a Flight Masters Scale Rubber-Powered Free Flight event at Mile Square Regional Park in Orange County, California.

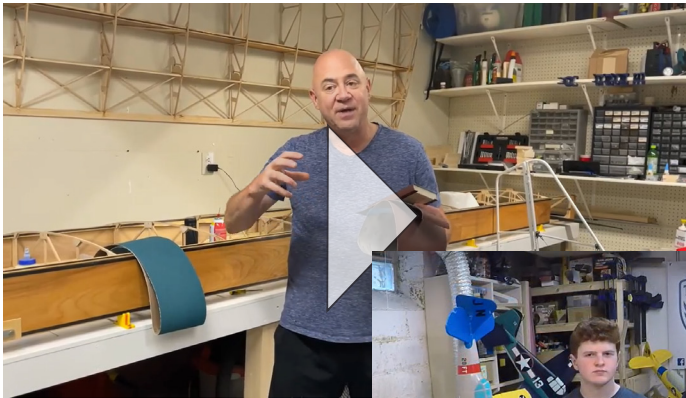

Matt reflected on the historic flight after it took place. “At the moment we heard that Ingenuity passed through its commanded steps of spin-up, takeoff, climb, hover, rotate 96° in yaw, descend, touchdown, and spin down, I was completely over the moon ecstatic about the incredible success,” he stated.

Read more at [amablog.modelaircraft.org/blog/helicopter-designed-by-ama-member-set-to-fly-on-mars](http://amablog.modelaircraft.org/blog/helicopter-designed-by-ama-member-set-to-fly-on-mars).

# Inspiring the Next Matt Keennon

Builders are an important part of our community. AMA dedicated the entire month of October to celebrating building. AMA members helped create a series of build tutorials, social media tips, and *Model Aviation* articles. Learn more at [modelaircraft.org/ibuildama](http://modelaircraft.org/ibuildama).

Members from across the country shared on social media their build tips and tricks. From left to right Damon "Dag" Atwood, Jack and Steve Niezgoda, and Fitz Walker.

The October build issue of *Model Aviation* included dozens of build articles and columns. This issue received the publications award from Graphic Design USA.

# Eight-Year-Old Member Breaks National Record

Henry Kruse started building and flying at age 5. His first Free Flight model was a Guillow's Cessna 180 build by number kit. Henry's dad stated, "He followed every instruction and completed it with minimal help." Soon Henry started building and competing at contests including the 2021 Lost Hills US Free Flight Championships. On September 26, 2021, eight-year-old Henry successfully broke a Mulvihill Outdoor Free Flight national record with a 9-minute, 35-second flight.

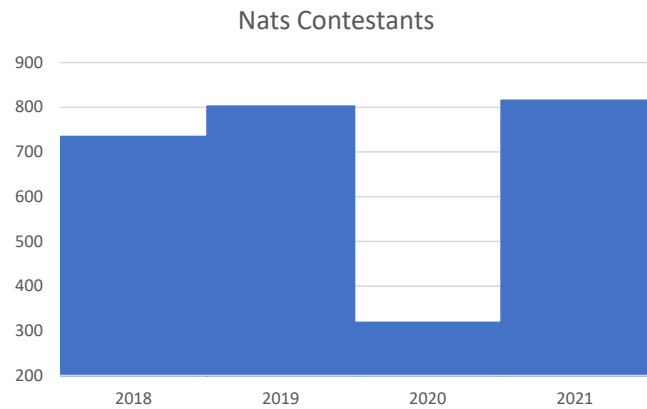

Henry and his Mulvihill, named the Mulvi-Henry. Photo by Arline Bartick.

# Members Return To Events

## Nats Exceeds Pre-pandemic Attendance

Vaccine rollouts, a reduction in summer 2021 COVID infections, and additional safety protocols allowed for AMA to host the Nats resulting in higher attendance compared with recent years.

## National Fun Fly

In addition to the Nats, the National Fun Fly grew in attendance as well. This three-day event included multiple flightlines safely spread across the IAC and a membership meeting. The 2022 National Fun Fly is scheduled for June 24-26. Learn more at [modelaircraft.org/funfly](https://modelaircraft.org/funfly).

**311**

New Contest Directors certified and credentialed.

**19**

New AMA National Records set.

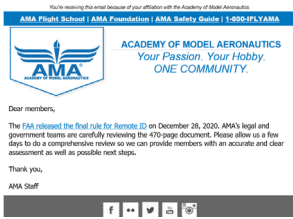

**39**

New Event Managers certified and credentialed.

**224**

New Turbine Waiver Holders credentialed.

# Member Communication by the Numbers

## 18,155,132 Emails

Throughout the course of the year, members received more than 18 million emails with information about the hobby and association.

## 1,929,553 Video Views

Members and hobbyists viewed AMA's online videos nearly 2 million times in 2021.

## 1,316,104 Issues

Over a million issues of *Model Aviation* and *Park Pilot*, full of reviews, event coverage, and industry news, were received by members.

## 2 Million Web Sessions

AMA's combined web properties received nearly 2 million web sessions in 2021. According to Google, modelaircraft.org has appeared in nearly 25 million search results.

## Model Aviation Digital Library

This year, we retooled our *Model Aviation* archives giving members better access to more than 400 back issues of *Model Aviation* with more robust search capabilities.

### Welcome to the Model Aviation Library

The Model Aviation Digital Library (formerly known as the archives) is one of many benefits to members of the Academy of Model Aeronautics (AMA). Over 400 issues of Model Aviation have been converted digitally into searchable articles and features. Each issue appears just as it did at its original time of publication, complete with period advertisements. It's a great resource that provides you with access to every "how-to" article, plans build, product review, AMA news, feature and event coverage relating to aeromodeling.

# Members Make IAC Improvements

Thanks to the generous donations of our members and support from the Executive Council, AMA was able to repair to many of the flying sites at the International Aeromodeling Center in Muncie, Indiana in 2021.

After repairing many of the Site 1 cracks in 2020, AMA was able to reseal and paint Sites 1 and 3 late spring 2021 (photo below). Many of these repairs were possible through donations, including the generous estate of CL pilot and lifelong hobbyist Roger Wildman (photo right). Learn more about Roger Wildman at <https://amablog.modelaircraft.org/amafoundation/2018/10/29/rogerwildman>.

Heritage Society Donor Mike Barbee donated supplies and labor to pour three concrete slabs near Sites 3 and 4 for pilot stations and tents. He and others members also donated labor and supplies to move and level level the runway on Site 4 in the fall. In the left photo, Mike (left) received the Legion of Honor Award for his contributions.

# Advocating for Our Members

Below are a few highlights from each month in 2021 as AMA shaped regulations and policies to grow our hobby and clubs, and safely expand operations.

## January

Secured educational UAS protections through the National Defense Authorization Act 2021.  
Began flying site recognition process for the Air Force Jr.OTC.  
Established a Remote ID committee to lead standards for our hobby.  
Submitted changes to streamline the process to secure member access to higher altitudes.  
Shapped two bills on weaponing UAS and restrictions on foriegn-made parts.

## February

Met with the FAA to secure club and event altitudes over 400 feet.  
Updated AMA safety programming with the AMA Safety Committee.  
Submitted the TRUST administrator application.  
Presented to the FAA at the Drone Advisory Committee on Remote ID.

## March

Meet with the US Secret Service to discuss TFRs impacting AMA clubs.  
Continued gaining altitude protections for clubs, including the Norfalcon RC club in Nebraska.  
Began meeting with Remote ID manufacturers.

## April

Conducted meetings with NASA about UAS safety reporting practices.  
Finalized updated to AMA Safety programming.  
Continued gaining altitude protections for clubs including the Signal Seekers Club in Michigan.  
Continued meetings with the FAA and legislators about Remote ID and altitudes.

## May

AMA Approved as a TRUST administor.  
Succesfully stopped harmful legislation such as the Endless Frontiers Act.  
Formalized partnerships with entities such as Google Wing.  
Continued gaining altitude protections for clubs, including the Barons Club in Washington State.  
Active in UAS Safety and Integration Task Force Meeting.  
Conducted leadership roundtable on TRUST.

## June

Invited the Consumer Technology Association to participate as a partner to grow Know Before You Fly.  
AMA rolls out TRUST portal free for members and the public.  
Continued meetings with the FAA and legislators on altitudes and Remote ID.

## July

Engaged with stakeholders at AirVenture and participated in presentations.  
Worked with legislators to gain support and recognition for AMA Education programs and scholarships.  
Continued gaining altitude protections for clubs, including the Heart of Texas Minature Club in Texas.

## August

Conducted meetings with the Boy Scouts and AUVSI on Know Before You Fly and associated programming.  
Continued gaining altitude protections for clubs including the Flying Wing Nutz in West Virginia.  
Participated in the Drone Advisory Committee and Subcommittees.  
Submitted public comments and recommended changes for Advisory Circular 91-57C.

## September

Conducted panel discussions with the FAA on Safety Awareness Week.  
Meet with the FAA on policies and regulations.  
Spoke at the FAA UAS Symposium on recreational operations and safety.  
Continued gaining altitude protections for clubs, including the Central Valley Soaring Club in California.

## October

Hosted EAA leadership to discuss collaborative advocacy efforts.  
Continued gaining altitude protections for clubs, including the Southern NH Club in New Hampshire.  
Conducted safety meetings with regional airports.

## November

Initiated an FAA waiver process for sanctioned events and Class G operations.  
Successfully stopped harmful legislation inside the NDAA bill.  
Submitted plans to the FAA to promote recreational safety in national media.  
Led an subgroup for FAA Advanced Aviation Advisory Committee to integrate UAS into schools.  
Continued gaining altitude protections for clubs, including the 107th club in Massachusetts.

## December

Met with FAA and legislators to protect night operations for AMA members.  
Began meetings with the FAA and EPA on behalf of AMA flying sites.  
Continued gaining altitude protections for clubs, including the Phantom Flyers RC in Missouri.

The Academy of Model Aeronautics was the recipient of the Indiana Society of Association Executives (ISAE) Outstanding Government Affairs Program STAR Award. AMA is proud to be a voice for the model aviation community and will continue to advocate on behalf of our members.

# 2021 Club of the Month Recipients

Each month, AMA highlights one of our 2,400 clubs. During the month, we invite the club to participate in a podcast, showcase the club's achievements in social media, and promote the club in other outlets.

**January**

Riverside Aero Modelers Society #1940

**February**

Prince George's RC Club #334

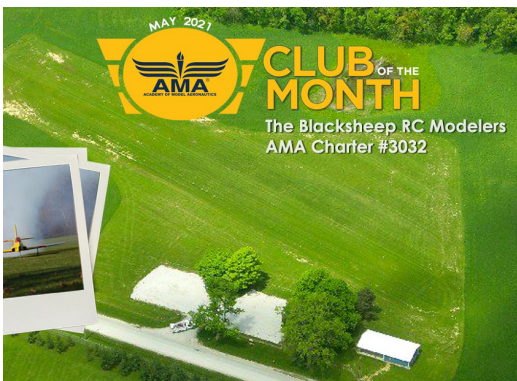

**March**

Omahawks RC Club #4736

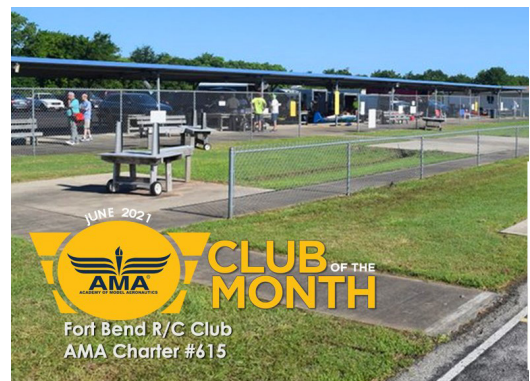

**April**

**November**  
Mid-Arkansas RC Society #170

**December**  
Lancaster County RC Club #556

# Inspiring Youth Members and Hobbyists

## AMA Jr. Camp 2021

This free virtual program introduced hundreds of pre-teens to model aviation fundamentals that will help prepare them for more advanced aeromodeling opportunities. Thanks to the many members who helped to make AMA Jr. Camp possible.

## AMA Youth Compete at EAA's Oshkosh

UAS4STEM is designed for students to learn, practice, and demonstrate professional grade unmanned aviation systems (UAS) to inspire the next generation of aviators, engineers, educators, and scientists. This year, AMA hosted the UAS4STEM national competition in the heart of EAA's Oshkosh. Congratulations to all of the students who participated and to Michael Penoa, the recipient of the 2021 Dewey O. Broberg Jr. Scholarship.

**EAA AIRVENTURE  
OSHKOSH  
2021**

**UAS4  
STEM**

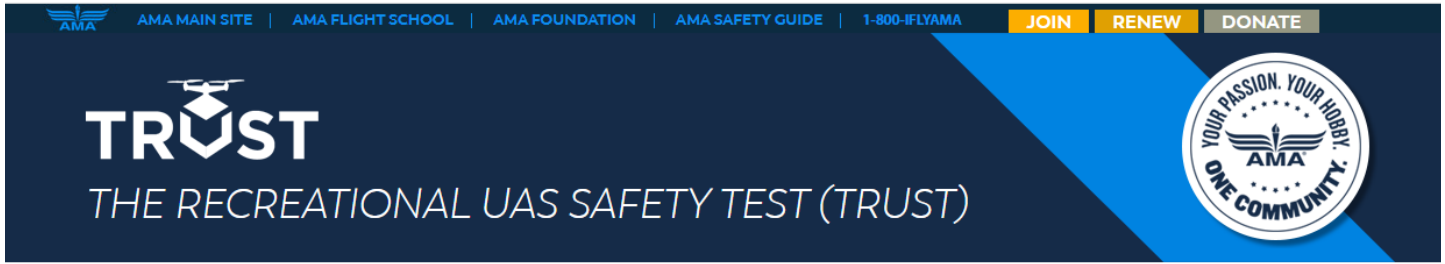

## Camp AMA 2021

During the summer of 2021, youth pilots from beginner to expert were introduced to all disciplines of model aviation. Throughout the weeklong, in-person camp, youth were given flight instruction, building opportunities, STEAM curriculum, and most importantly, enjoyed the camaraderie of like-minded peers.

# Promoting Safe Operations

Thanks to the support of staff, AMA committees, and volunteers, we conducted a complete audit and redesign of our AMA Safety Program, created programming for National Safety Month in June, launched a free safety training portal in conjunction with the FAA, and developed plans to promote Know Before You Fly.

Knowledge Check

## A RECREATIONAL FLYER IS A PERSON WHO

- only flies their UAS for fun.
- may be paid for flying.
- is allowed to fly for work or business as long as they are not being paid.

BACK

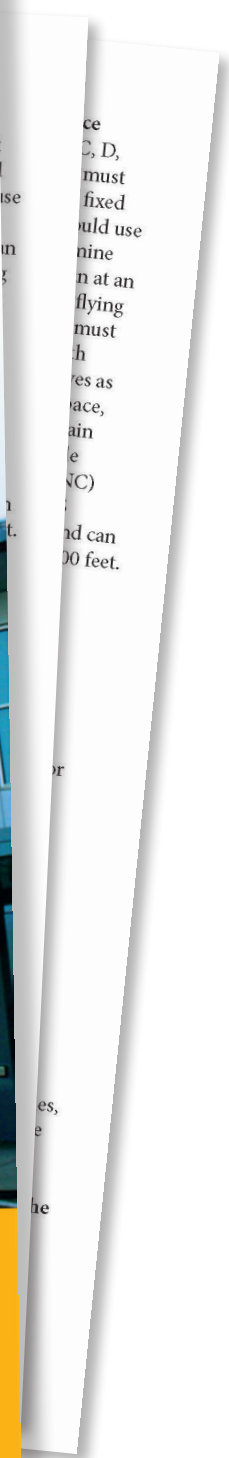

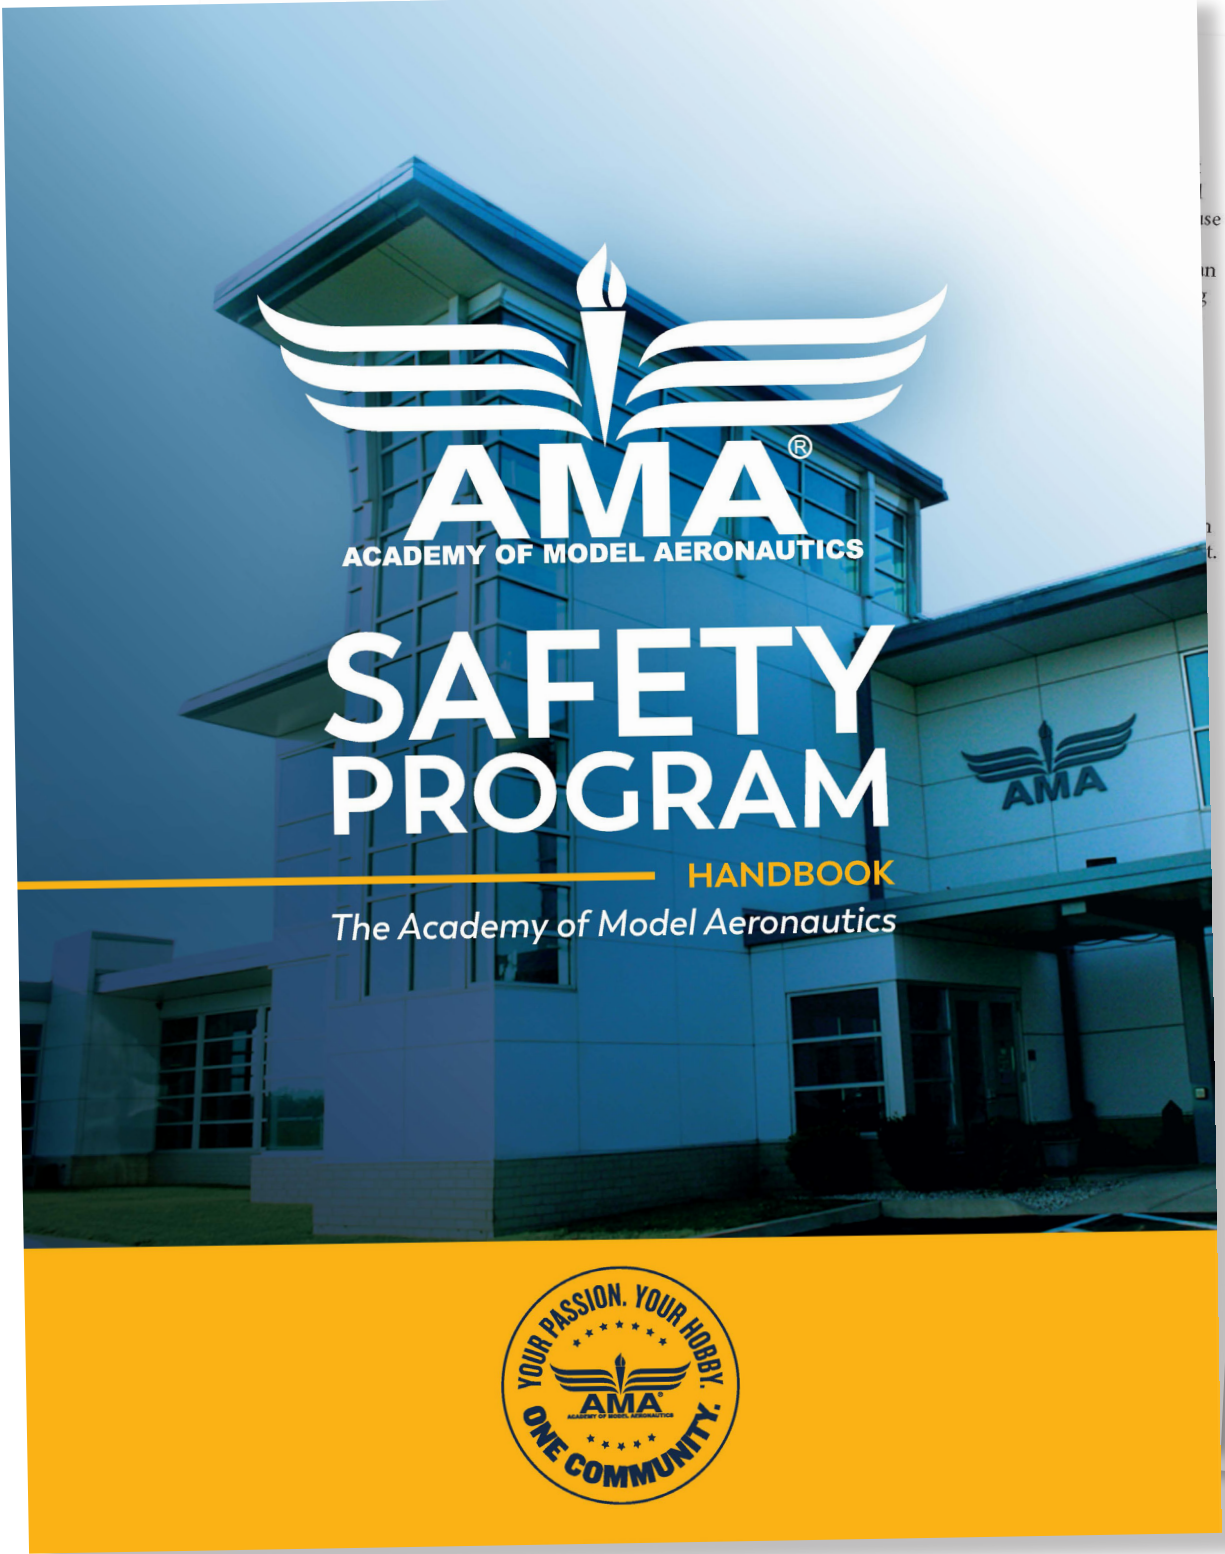

NEXT

June 22, 2021, the AMA began offering The Recreational UAS Safety Test (TRUST). The TRUST is a learning portal about basic safety recreational flying that most AMA members will likely know. Included are fail-proof multiple choice questions. Every user will successfully pass with a certificate.

Consistent with AMA's mission to promote safe operations of model aviation, TRUST is free for anyone interested in model aviation by visiting [trust.modelaircraft.org](http://trust.modelaircraft.org).

Members can print the *2021 AMA Safety Handbook*, access safety content, take TRUST, and download additional safety programming for our hobby at [modelaircraft.org/safety](http://modelaircraft.org/safety).

# Members Receive New Benefits

AMA introduced insurance discounts for hobby shops, members with small businesses, and the industry owners that support our hobby.

AMA secured additional discounts and benefits for members. Members have free access to airspace maps and LAANC through UASidekick, additional travel discounts through Affinity Travel and GoCampLife, discounted technology coverage through Tech-Protect, and 24/7/365 access to a doctor through Teladoc. Learn more by logging in and visiting [modelaircraft.org/membership/benefits/exclusive-offers](http://modelaircraft.org/membership/benefits/exclusive-offers).

Safety is core to the AMA community, not only in the airspace but to people and property. AMA and the American Red Cross partnership builds upon our commitment to safety by providing additional training and discounted AEDs at our club flying sites. Cost should never be a barrier to safety. The substantial discount provided to our members and clubs through this partnership, helps pave the way for every AMA chartered club field to have an affordable AED.

# Preserving Member Stories

## Expanding Our Digital Collections

Thanks to the donations of members, staff continues to add new books, objects, and archives to the digital collections. Members now have access to 8,548 items online at [modelaircraft.org/museum](http://modelaircraft.org/museum).

## New Exhibits

The National Model Aviation Museum continually added new exhibits and displays throughout the year. Two notable additions in 2021 include a new Miniature Aircraft At Work Gallery (left) and a new Scale exhibit (below). The Scale exhibit was possible through a generous donation from Heritage Society Donor Paul A. Moorman.

# Member Generosity

The AMA Foundation continues to grow and provide more funding for AMA programs each year. Thanks to the following members who made a contribution to the AMA Foundation.

Note: This list represents every donor who gave in 2021 and their current donor recognition level (bronze, silver, etc.) based on their cumulative gifts. The Heritage and Legacy Society Members are Lifetime Members, so those lists represent any donor who has reached those levels, regardless of whether or not they gave in 2021.

# Good Stewards of Member Dues

AMA continued to conduct operations and services with a balanced budget in 2021. You can read more about AMA's finances in the members only section at [modelaircraft.org](http://modelaircraft.org).

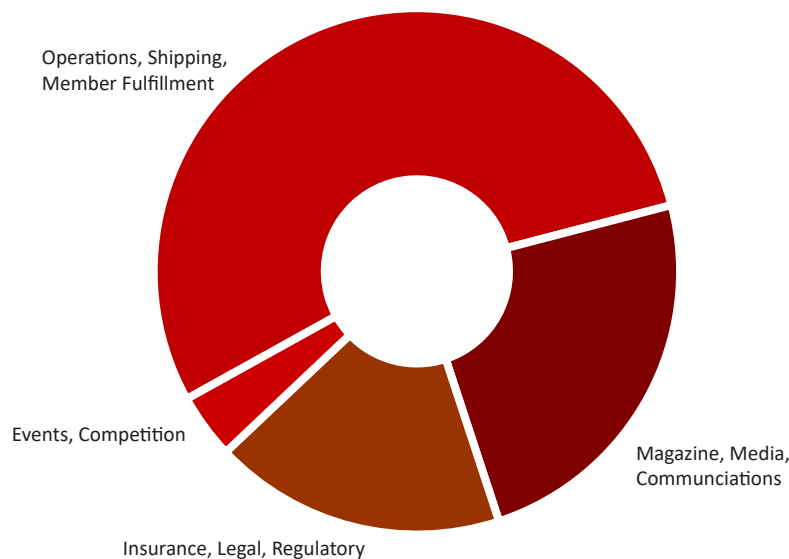

## Revenue

While COVID-19 negatively impacted certain sources of revenue, AMA exceeded budget forecasts for membership and other non-dues categories.

## Expenses

AMA faced rising inflation and growing service costs in 2021, yet AMA was able to fulfill services while keeping the budget balanced.
